

PROFESSIONAL SUMMARY

Extensive design experience in product, print, exhibit and web areas bring versatility with a user-centric orientation to my overall design process. I've designed in Agile and Lean environments.

This experience extends beyond the boundaries of design to incorporate business strategy, project & staff management. I've had a lot of high level interactions among client & stakeholders. This coupled with stellar communication facilitates design development and results in a well-performing final product.

As my colleagues and former supervisors will resonate, I am bright, work smart, hard and am a skilled communicator. I know when to make a point and when to let group dynamics hold sway.

SKILLS

Wire framing | Site maps | Mockups | User paths | Personas | Empathy Maps | Information Architecture
Journey Maps | Value Propositions | Prototypes | Branding | Web Front End | Visual Design | Pre-Press
Pattern Libraries | Project Management | Department Management | Customer Experience

UX OmniGraffle, Axure, Balsamiq, Visio, Sketch, Invision, Flinto, Adobe UX, Adobe Analytics
CODE Fluent in HTML5 & CSS3 | JavaScript libraries, J-query | Atomic
CMS DNN, Ektron 8, Joomla 2.5 , Wordpress, Adobe Experience Manager, Adobe Analytics
CAD Rhino Cad 5, AutoCAD 12

WORK HISTORY

County of Riverside **Ux/Ui Designer** **Contract** **countyofriverside.us**
Riverside, CA **10/18 – present** **Websites – DNN**

County of Riverside RCIT group designs and maintains close to 300 websites among other IT services

- Migrating older sites into newer responsive DNN templates: countyofriverside.us & rivcoawm.org
- Page design, Mock-ups, Content Inventory, Information Architecture as well as project management

Capital Group **Ux/Ui Designer** **Contract** **nad.capgroup.com**
Los Angeles, CA **6/17– 6/18** **Intranet – Adobe Experience Manager**

Capital Group handles \$1.7 trillion in investment assets internationally. The North American Distribution Group (NAD) maintains an intranet to make the PDF & PPT resources available to it's associates and sales force.

- Migrated HTML/CSS Table based site to Adobe Experience Manager, integrating the eCatalog for PPT files
- Page design, Mock-ups, Content Inventory, Information Architecture as well as project management
- Developed user insights in Adobe Analytics
- Developed style sheets, document standards and process for maintaining site

Madeline Garden **CX/Web Design** **Consultant** **http://in10years.us**
Los Angeles, CA **12/16 – 5/17** **Website & social media**

Madeline Garden offers dining experiences (brunch, lunch & dinner) & venues for events. Located in the Historic Green Street District of Pasadena, its ambiance evokes an old-world charm in a romantic setting.

- Redesigned website, coordinating social media, marketing campaigns, staff training materials.
- Responsible for the entire information architecture & modifying the designs with HTML5 & CSS3.
- Site built on WordPress, is responsive with restaurant theme & Ninja Forms Plugin to update easily.

Public Storage **Ux/Ui designer** **Contract**
Los Angeles, CA **11/15 – 7/16** **SAAS admin site "WebChamp2"**

Webchamp is the SAAS intranet site used by Property & District Managers to manage Public Storage facilities. It handles a very complex rule set for renting space & managing vacancies, delinquent accounts & various discounts. This project transitioned to Agile & allowed more communication with Developers.

- Daily interaction with Business Analysts & stakeholders to gather requirements.
- Produced information architecture including wireframe & process flows.
- Developed several hi-level management screens & workflows.
- Omnigraffle used for fully annotated wire frames & process flows.
- Interactive prototypes produced with Flinto.

WORK HISTORY
